

June 5, 1967

Dr. Richard P. White
Associate Professor of Pharmacology
Department of Pharmacology
The University of Tennessee
Memphis, Tennessee 38103

Dear Dick,

Thank you very much for the protocol, which is quite satisfactory. I will be meeting with the people at Sterling Winthrop on June 12, and will have some opportunity soon thereafter to make clear the financial situation.

In the interim, Dr. Joseph G. Bird, Director, Division of Clinical Research, Sterling Winthrop Research Institute, Rensselaer, New York, is willing to make up to 1 gram of pure cyclazocine (hydrochloride) available to you, if you will submit the copies of the enclosed investigator form directly to him.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
