Dr. Alain J. Sanseigne
Associate Medical Director
The Squibb Institute for Medical Research
New Brunswick, New Jersey 08903!

Dear Alain,

I very much enjoyed the opportunity, once again, to discuss the fluphenazine projects. Following our discussion, I have made up a protocol entitled "Treatment of Schizophrenia with Fluphenazine: High Dose and Very High Dose Therapies." I have sent this to Dr. Itil for his comments and as soon as I have received these, will send them on to you.

The first fluphenazine decanoate data is ready to be put into folders, except for four additional summaries. As soon as these are completed, all the material will be sent to you and should be in your hands within two weeks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
