Dear Dr. Hudspeth,

Enclosed are two of our latest reprints. Most of the citations for our work can be found in the summary report.

If a special aspect of this work interests you, I will be glad to answer a specific inquiry.

For a more general review of the problem you may wish to get the volume edited by Dr. Itil, from which this chapter is abstracted.

Thank you for your interest.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
