Dear Joe:

I am delighted that the volume Contemporary Sexual Behavior is in such demand. Your optimism in reprinting 2000 additional copies is commendable and, once again, I think your vision has been substantiated.

I called Milt Greenblatt and was satisfied that the Committee had made an appropriate recommendation with regard to Philip May. A copy of Milt's note to me is enclosed, and I believe that the view expressed in this letter should be made a matter of APPA record. I plan to raise this in the discussion at the next Council meeting.

Again, my congratulations on the success of the "sex" volume.

Sincerely yours,

Max Fink, M.D.
