Dr. F. G. Hofmann,
Columbia University College of
Physicians and Surgeons
700 West 168th Street
New York, New York 10032

Dear Dr. Hofmann:

Thank you for sending me a copy of "A Handbook on Drug and Alcohol Abuse". It is well written and reads easily.

Since the time when we chatted about the narcotic antagonists, there has been some progress - notably, much testing of naltrexone has shown this drug to be superior in efficacy and toxicity to cyclazocine. When next you issue reprintings, it would be helpful to bring this section up to date, as the work is active.

Again, my thanks.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
