

July 3, 1970

Dr. Ralph Jacobsen  
Endo Laboratories  
Garden City, New York

Dear Ralph,

Thank you for the corrections to the summary of the June 4 meeting. I will make the changes, and I am pleased to tell you that the summary has been accepted for publication in Science.

We have had an opportunity to discuss the problem of continuing our studies of oral naloxone. Aware that our request for additional supplies for oral trials remains unfulfilled, we have requested support from the New York State Narcotic Addiction Control Commission for our independent purchase of naloxone from any available source.

It is my understanding that Mallinckrodt Chemical Co. is the principal U.S. source of the compound. I have written to the President of that company, enquiring as to the possibility of their supplying naloxone for our use.

I would appreciate your cooperation in this request.

It would also be helpful if you could tell us of other potential sources of supplies of naloxone.

Many thanks for your cooperation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
