

February 20, 1964

The Honorable John M. Dalton
Governor of Missouri
Jefferson City

Dear Governor Dalton:

It is with great pleasure that I send you a copy of the first annual report of the Missouri Institute of Psychiatry. This report covers the period from the inception in January, 1962, the dedication in October, and the first full year of operation.

This record of the activities of this research and training facility of the Division of Mental Diseases is a reflection of your vision in authorizing this research facility. The programs are in active progress now, and I look forward to a continued and healthy growth during the next years.

Many thanks for your support.

Very truly yours,

Max Fink, M.D.
Director
