6 February 1974

Dr. Victor Teichner  
Department of Psychiatry  
Metropolitan Hospital  
97th Street and 2nd Avenue  
New York, New York 10029

Dear Dr. Teichner:

I have known Dr. Alvin Cronson since 1942, when we were both students at New York University.

During the past two years, he has been working in the narcotic addiction unit of the Department of Psychiatry at New York Medical College. Dr. Cronson is a sophisticated and careful psychiatrist with excellent training and extensive experience. He accepted the challenge of working with narcotic addicts and has done a commendable job.

I would recommend him for the position for which he is applying without reservation.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
