Dr. Raymond Bonner
Thomas J. Watson Laboratories
I B M
Yorktown Heights, New York

Dear Dr. Bonner:

Recently, I was attending a colloquium at the University of Miami and Professor R. Monroe indicated that he had heard a report of yours concerning pattern recognition of the electroencephalogram. This is a subject of great interest to our laboratories in St. Louis, and I would be grateful for a copy of the report, if that is available.

Many thanks.

Sincerely yours,

Max Fink, M. D.
Director
