Dear Dr. Melisch,

For reasons that are outside our control, I regret to say that we are unable to accept a Fellow in ECT for the coming year.

Thank you for your interest, and my regards.

My regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
and Neurology

Dear Dr. Melisch,

This letter is in response to your inquiry regarding a fellowship at this University for 1993-1994. Ordinarily, our committees have their budget assigned and have made their decision by this date. This year, however, the University budgets have not yet been assigned, and I am writing to tell you that a final decision will not be made until the end of April.

I recognize that such a delay is frustrating and makes any planning difficult.

My regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psuchiatry

Dear Dr. Melisch -

*Above was mailed yesterday.
will FAX what needs I get as
soon as I can.*

Max Fink

Dear Dr. Melisch,

We received your letter of application for a fellowship in psychiatry and the supporting material. Thank you.

The file is as complete for the present as we need. The Fellowship committee will consider the application in the late winter and announcements of awards are made in early February for the next academic year which begins in July, 1993.

Before the end of this year, you will receive additional inquiries and advice about your application for a suitable visa from our Training Office. I understand that such an application will have to be made by yourself in Austria.

I look forward to seeing you in Munich. Hopefully, I will have more information at that time.

Have a good holiday.

Sincerely yours,

Max Fink, M.D.
Professor of Psuchiatry

Check . J-1 Visa through PCFMC

Dear Dr. Melisch,

Thank you for your inquiry about research opportunities in our Department. Each year we offer fellowships to qualified candidates in consultation & liaison, sleep disorders, ECT and psychopharmacology, and child psychiatry. If you specifically wish to work with my team, the fellowship in ECT and psychopharmacology would be appropriate.

Please send me a new letter requesting consideration for a specific fellowship, effective July 1, 1993, describing what experience you seek. If possible (and I know it is difficult), the note should specify why you seek U.S. training. [e.g., to undertake a specific research project; or for general research experience to allow you to return to Austria and an academic career; or for greater exposure to U.S. clinical experience; etc. If you have a specific project in mind, would you include a few paragraphs describing the project?]

We will also need the following information:

- curriculum vitae
- copy of ECFMG and any other certificates of training in English
- copy of certificate of any post-M.D. training.

It would be useful if Dr. Zapotocky (or other senior psychiatrist) would describe your education and experience. It would be particularly helpful if the letter would suggest what expectations are held for the additional training.

This reads like a lot to do but it will be useful to support your application for a fellowship.

My regards to Dr. Zapotocky.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
