Dr. E. James Anthony
Community Child Guidance Clinic
369 N. Taylor
St. Louis, Missouri

Dear Jim:

The representatives of the NIMH Training Branch will be site-visiting the MIP program on October 30. As George indicated, we would be pleased to have your participation along with Quentin. For the present, I have scheduled the child psychiatry participation for 2:00 p.m.

I am enclosing an outline of the training program as we have worked it out in the last few months. This provisional program is the basis of our application for training grant support.

I would be pleased to participate in the visit by Dr. Harold Williams. I should like to have him tour our facility on Tuesday, November 12, in the afternoon. Good luck in your negotiations with him.

Best regards.

Sincerely yours,

Max Fink, M. D.
Director
