Dear Carl:

I was unable to attend the ASPET meetings, but my associate, Dr. Sam Gershon, did. He listened to a number of papers from your laboratory and returned recommending that I read them, if possible. In reading the abstracts, I am delighted with the quantification you have introduced to this field.

I would like to read the article by Dr. Schram et al and one by Dr. Murphree, both of which were presented on Tuesday, August 13, 1963.

My best regards.

Sincerely yours,

Max Fink, M. D.
Director
