

January 13, 1965

Morton Goldman, Ph.D.
Chairman, Department of Psychology
University of Missouri at Kansas City
5100 Rockhill Road
Kansas City, Missouri

Dear Dr. Goldman:

At the request of Mr. Charles Galloway, I am pleased to send you the following information regarding his appointment at this Institution. Mr. Galloway joined the Institute on May 11, 1964 and resigned effective January 20, 1965 to undertake a study program at your Institution.

During this period, he has participated in the neurophysiological research programs of this Center. He has qualified as an EEG recordist, and has provided technical help in a special study of drug effects on electroencephalogram in volunteers. In addition, he has written a review of the studies of operant conditioning as applied to mental health research. This review, entitled "Man in the Box", is exhaustive and has been helpful to us.

Because of his enthusiasm and ability, we have encouraged him to return to school for further training and are pleased that he has decided to undertake a full study program.

Sincerely yours,

Max Fink, M.D.
Prof. of Psychiatry
