Dr. William Tabor  
A. H. Robins Company  
1407 Cummings Drive  
Richmond 20, Virginia

Dear Bill,

Enclosed are a few copies of our interim report of the studies of Repoise (butaperazine syrup) in a group of non-responsive psychotics in a mental health clinic. Previously we had sent you the case material, laboratory and clinical data.

I have asked Drs. Clare and Simeon to revise this for publication, and look forward to submitting it either to *Current Therapeutic Research* or the *Journal of New Drugs*.

Separately I have sent to Dr. Owen reports of our studies with Tybatran. I trust he will share these with you. I have also completed the protocol for AHR-1900 and this will be sent to Dr. Clark.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
