Mr. Paul Argeros  
13945 N.E. 10th Avenue  
North Miami, Florida 33161

Dear Mr. Argeros:

It was kind of you to write about our research program.

The drugs are still in experimental trial and are not available outside our institution. For the meanwhile, we suggest you continue with methadone. We are confident that as soon as our treatments are approved for general use, they will be publicly available in your community.

Thank you for your interest.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
