Philadelphia, Pennsylvania 19101

Dear Don,

I have read the research circular on SKF 14336 with a great deal of interest. While I think the study is appropriate, I do not believe that the target population that is listed in the protocol can be made available at our hospital for a number of months. For this reason I would ask to pass.

Thank you very much for the opportunity to read this information and I hope that we will have an opportunity to participate in another study.

My best regards.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
