Dear Roy,

Of all the members of my staff, the most talented is Donald Shapiro, who is the Director of our computer facility. Don has just completed the formal training program in computer sciences at Washington University. I know that he is restive and while he will complete the programs with me here, it is highly likely that he will seek another opportunity this summer.

I suggested that he come and visit the College. Al agreed, and he will come in on Monday, February 21. I hope that this date is convenient because I would like very much to have you meet and perhaps have you or one of your associates spend some time describing your programs to him. We will be at the College about 10:00 am and Al's secretary will make up some schedule for him.

A copy of his curriculum vitae is enclosed for your information.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
