

October 30, 1971

Dear Turan,

The enclosed letter sent me to my basement files, and I have pulled duplicate copies of every report during the halcyon days of MIP's collaboration-- and I am sending these to you separately. I fail, however, to find the report requested in the enclosed letter, which is what sent me to my files in the first place. And, the EEG manual by Shapiro -- I have one last, file copy. Perhaps this issue should be redone and republished.

By now you could be back. Trust all is well.

My best to Ellen.

Sincerely yours,
