Dear Dr. Goldberg:

I am grateful for your invitation to participate in recording for the Behavioral Sciences Tape Library. It is unclear to me what subjects you wish represented, nor is it clear what benefits may accrue to me for my services. The work of this division is very broad, encompassing ECT (both clinical and experimental), opiate dependence therapy, cannabis effects (acute and chronic), and EEG effects of psychoactive drugs. Such a program is actively presented at national and international meetings, and could serve the library.

However, it is not clear how this lecturer may benefit; nor is it clear whether the talks are to be presented informally or formally. Perhaps you may wish to consider another financial arrangement, as a fixed sum for the series and a lesser "royalty" for each subscription?

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
