Dr. Kenneth Lifshitz  
Rockland State Hospital  
Orangeburg, New York 10962

Dear Ken,

Thank you for your inquiry regarding our paper for the Society of Biological Psychiatry. I had hoped to present some information from our pentothal data but these analyses have been more protracted than anticipated. Last month I withdrew the report.

As soon as our present studies are completed I will be glad to send you a copy.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
