

1 March 1974

MEMORANDUM

To: Marvin Kuschner, M.D., Dean, School of Medicine
From: Max Fink, M.D., Professor of Psychiatry
Subject: AOA

It may be appropriate, if it has not already been done, for the School of Medicine to establish an AOA section. AOA has been used as an incentive for excellence in study in other institutions and may be useful here as well.

If not yet established, perhaps your office could inquire of the faculty how many are already members to determine if a sufficient nucleus exists for the development of such a unit.
