Dr. B. K. Shah
Research Facility
Rockland State Hospital
Orangeburg, N. Y. 10962

Dear Dr. Shah:

I thank you for the many reprints you have sent us. As you know, there is no end of models, and yet, there seems to be a dearth of data. I am most interested in the application of these models to the evaluation of the time course of a drug's activity in the brain. In exchange for your kindness, I enclose a reprint of one of our early studies.

Many thanks.

Sincerely yours,

Max Fink, M. D.
Professor of Psychiatry
