

January 16, 1968

Dr. Richard Ellingson
Nebraska Psychiatric Institute
602 S. 44 Avenue
Omaha, Nebraska 68105

Dear Dr. Ellingson:

It was a pleasure to participate in the Sugerman project review on Friday. I am taking the liberty of enclosing copies of reports recently prepared which summarize our present view of the relation of EEG, psychotropic drugs and behavior. These reports were prepared for the recent ACNP meetings, and are to be considered drafts requiring additional editing.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
