Dear Dr. Marsan:

I am pleased to enclose two copies of the Bibliography of EEG and Human Psychopharmacology, 1951 - 1962, recommended title, introduction and address pages, and a list of Journal abbreviations which were not available in the World List, and which we have used in this Bibliography.

Following your recommendations of July 15, accents, semi-colons, and quotation marks have been introduced by hand. Instead of square brackets, we have used a single asterisk; instead of a colon, we have used the equal mark. Wherever necessary, the word abstract appears in parentheses at the end of the reference.

I hope that these copies meet with your critical approval.

Many thanks for your cooperation.

Sincerely yours,

Max Fink, M. D.
Director
