Dear Mike,

When Turan was here, we spoke about the EKG's at some length. Last night I was reading some notes from the ECDEU Program and the attached was included, which I am sending you for your interest.

I plan to be at MIP next Wednesday, and I would be pleased if you could work out some time with Turan for us to go over some of your studies.

My best regards.

Sincerely yours,

Max Fink, M.D.
