Dr. Allen Raskin
National Institutes of Mental Health
5454 Wisconsin
Chevy Chase, Maryland

Dear Dr. Raskin:

We have recently completed our report of the trials of cyclazocine as an antidepressant. I am writing to ask if any trials by groups other than Abuzzahab and Schiele have been reported, and if so, if the data is available.

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
