Dr. A. J. Sanseigne
Associate Medical Director
Squibb Institute for Medical Research
New Brunswick, New Jersey

Dear Alan:

Enclosed is a carbon of a letter which I have sent to Dr. Monroe describing the present state of our study program. Since I do not know the proper protocol, it seemed appropriate to write directly to him and send you the enclosed carbon, trusting that he will explain the special relationship that we have established.

My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
