

September 25, 1963

Eli Robins, M. D.
Chairman, Department of Psychiatry
Washington University
School of Medicine
660 South Kingshighway
St. Louis, Missouri

Dear Eli:

Enclosed is a copy of the curriculum of Dr. Menek Goldstein. I will be visiting his laboratory on Tuesday, October 1.

Also, I am a member of the program committee of the Society for Biological Psychiatry for 1964. John Nurnberger is the Chairman. I have been asked by John to make some suggestions regarding a symposia or panel discussions for that meeting. I would be grateful if you would announce this to the staff at the next Monday meeting, in the event that any are interested in a specific subject or in organizing a specific symposium. In the event that they are, I would be pleased to carry their suggestion to the program committee.

Sincerely yours,

Max Fink, M. D.
Director
