Dear Norman,

Enclosed is a draft of a Forward for your new book. In acknowledging Dr. Persad's contribution, I assumed it was to assure the details of the treatment, indications, and risks, and I so noted on page 3. If that is incorrect, or you wish me to include a different statement, please let me know.

Let me know if there is something that you wish changed. I will be at my office this week, but will be away from July 3 to 12 in England.

It is a pleasure to make this small contribution to the success of the book. When it is published, ask Ms. Stillman to send me an additional copy for review, and I will ask one of the members of the Editorial Board of CONVULSIVE THERAPY to review it promptly. (Indeed, if she will send an unbound copy of the page proofs, and we get a review by the end of August, we may get it into the December issue.)

My best regards and my best wishes for the success of this effort.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
