Dr. Joseph Jaffe
722 W. 168th Street
New York 32, New York

Dear Joe:

I am delighted that our computer is now installed and while the major effort of the unit is devoted to writing programs for EEG analysis, I believe there may be some time this summer to take a look at some language programs.

When we last talked, you mentioned that you were working on a number of programs. For those that are completed, is it possible to get a discussion of the program, or write up, so that I can judge the applicability to your equipment and interest.

I missed you during the APA, but I had the opportunity to discuss the academy with Dr. Rado, and he was most pleased as having appointed you as Chairman of one of the committees. He looks forward to a lot of work.

My best regards.

Sincerely yours,

Max Fink, M. D.
Director
