Dr. Donald O. Walter
Brain Research Institute
U.C.L.A.
Los Angeles, California

Dear Don,

I was quite interested in your report to the American EEG on Saturday, as well as the abstract of the report by Jan Berkhout. If either of these are available in preprint form, I would be grateful for the opportunity to read them.

Incidentally, if you have any other recent reports which are now in press, especially those that you are presenting in the more esoteric computer journals, I would be grateful for the opportunity to read those as well.

It is always a pleasure to hear your presentations. My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
