Dear Dr. Beaubien,

Dr. Drago Slav V. Ercegovac visited our facilities during the week of October 29. He toured our Health Sciences Center, observed EEG recording sessions in volunteers and discussed our EEG methodology; visited our V.A. clinical study unit and observed modern methods of ECT and discussed principles and theories of ECT. We found him to be a delightful visitor and guest, and we hope that we contributed to his "BFA".

Thank you for referring him to us.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry

Dear Dr. Beaubien,

We would be pleased to have Dr. Ercegovac visit our laboratories during the week of October 29, 1979. It would be helpful for Dr. Ercegovac to let me know what aspect of our studies interest him.

I suggest he call me at 516-444-2447 in September to discuss the visit.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
