

MAY 17, 1963

Dr. Ernst A. Rodin  
Lafayette Clinic  
951 E. Lafayette  
Detroit 7, Michigan

Dear Ernst:

I am busy setting up an EEG classification system for our new laboratory. As I recollect, you have already gone through all the struggles of classifying patients and records. I would be grateful if you would send me a copy of your present form with whatever instructions you give your personnel in classifying the history diagnosis of subjects, as well as EEG records.

I have just received a note from Mike Saunders saying that the Central EEG Society will be meeting in St. Louis in November. I hope you will attend at that time, and I should be pleased to take that occasion, or any time sooner that you visit St. Louis, to take you through our new center.

My best regards.

Sincerely yours,

Max Fink, M. D.  
Director
