Dr. William Cooper
Sterling Winthrop Research Institute
Rensselaer, New York

Dear Dr. Cooper,

Enclosed are additional case records from our cyclazocine study program for your files. The top pages list the names of the patients entering and discontinuing the study since our last report.

Thank you for your cooperation.

Incidentally, I have received indirect reports that you are quite successful in investing cyclazocine in a long-acting formulation. If true, it would be a useful adjuvant to treatment.

Sincerely yours,

Max Fink, M.D.
