Dear Fred,

Enclosed is a copy of the 1976/77 Program Statement and Budget Request for the Division of Therapeutics of the Long Island Research Institute. I think you may find this useful. The program is set up so that we will develop all five laboratories of this division during the next four years. The missions reflect my present interest but these may be modified by the scientists who join the program.

On a more personal matter, my wife asked me yesterday whether I knew a "Dr. Fred Quitkin" and when I said I did, she told me that your son is in her class. He's quite a charmer and she looks forward to meeting you when you visit the school.

My regards,

Sincerely yours,

Max Fink, M. D.  
Professor of Psychiatry
