Dr. W. C. Bunney
Actind Director
Div. Narcotics & Drug Abuse
National Institute of Mental Health
Rockville, Maryland 20852

Dear Bif,

While in Marseille in September at a meeting called by the President of the University on the subject of cannabis research, I was impressed that they were doing excellent work with materials of unknown potency. The dosages administered exceeded in THC content those ordinarily given in the U.S., and I urged Dr. Gastaut to request some materials from the National Institute of Mental Health, so that his findings could be compared to those of our own and of other laboratories in the U.S.

A copy of his letter and my covering letter to Monique are enclosed for your information.

Any assistance you can give these scientists should be repaid in fine, comparable data.

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry

cc: Monique Broude, M.D.
Henri Gastaut, M.D.
