

July 9, 1968

Mr. Thomas M. Colasuonno, Director
Alcohol & Drug Education
The Western Institute of Drug Problems
Summer School
P. O. Box 1491
Portland, Oregon 97207

Dear Mr. Colasuonno:

Some weeks ago we responded by sending a copy of my curriculum vitae and photographs to Mr. Don Short. In response to your recent request, I am enclosing a short autobiography and a copy of my complete curriculum vitae for your use.

Since the presentation will be a summary of our experiences during the past few years and an overview of the work of others, no formal paper is available. To supplement my remarks, I am enclosing copies of publications and preprints recently completed in this department which will be the basis of the presentation. The focus of attention will be on the problems of narcotic antagonists in the treatment of opiate dependence and the most relevant material is summarized in the preprint "Antagonists in the Treatment of Opiate Dependence" and "Narcotic Antagonists and Substitutes in Opiate Dependence."

As I would like to arrive a day or two prior to the actual presentation, I would appreciate a copy of the announcement of the Institute and a suggestion as to the nearest motel accommodations.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
