SUBJECT: Staff of Department of Psychiatry list

In scanning the informal "Staff of Department of Psychiatry" list, I have two suggestions.

Dr. Alexander Don: He has not been recommended for Associate Professor, and I would suggest that he be listed under the technical title of Staff Psychiatrist, V.A., or Consultant to the V.A.

Dr. Jan Volavka: Although I have asked you to consider his appointment, it is inappropriate to list him until he has decided to allow me to process his papers; I suggest he not be listed as he is still "making up his mind".
