Dr. Bruce Waxman  
National Institutes of Health  
Bethesda, Maryland 20014

Dear Dr. Waxman:

Dr. Eugene Laska of the Research Facility at the Rockland State Hospital was kind enough to suggest that I send you a copy of the enclosed preprint.

Dr. Shapiro and I have put this material together to provide the many interested friends with a document which can give a better idea of what we have accomplished than the various abstracts which are publically available.

A more definitive report of the applications of these studies is now being written and will be submitted for publication.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
