Hillside Hospital  
Glen Oaks, New York 11004

Dear Don:

It is true that one can buy and sell shares of the Lehman Corporation as this is a closed-end investment trust--it has a limited number of shares outstanding which are sold on the open market. Considering the debacle which has occurred this week, it may be prudent to sell part of the shares now and invest the profits at 8% in Treasury bills or 8.5% in government bonds.

I spoke to Mrs. Podrid this afternoon. She told me that she knew of no problems with the APPA program. Should you find there are any problems, please call me.

Sincerely yours,

Max Fink, M.D.

MF/cis
