

May 28, 1969

Dr. Sidney Merlis
Central Islip State Hospital
Central Islip, New York

Dear Sid,

I am writing to recommend Dr. Seymour Ehrenpreis for membership in the ACNP. Werner Koella joins me in recommending Dr. Ehrenpreis.

I have known of his work for some time but only had the occasion to meet him since he joined our faculty. His lectures have been well received and his study program is already established, despite his recent move. His interests in the pharmacology of acetylcholine and other biogenic amines at the molecular level holds much promise for the understanding of the mode of action of psychoactive agents, and I hope he will make significant contributions to the work of the College.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
