Dear Joyce:

I have submitted the protocol for the study of OI-63 to the FDA. As I understand the regulations, you may proceed with this study since this is a supplement to an ongoing IND. As soon as I receive the acknowledgment of receipt, I will send it to you.

May I ask that you send me a copy of the consent form that you are using for this study? Also, would you indicate for my records the name of the committee and the date when this protocol was approved for study at your hospital. I need these two bits of information for my records only.

My best regards,

Sincerely yours,
