

March 18, 1968

Dr. Merle L. Gibson
Acting Director
Division of Neuropharmacological
Office of New Drugs
Bureau of Medicine
Washington, D.C. 20204

Dear Dr. Gibson:

RE: IND 2640

When I left the University of Missouri in 1966, the remaining supplies of CI-395 and the study program was turned over to the director of the Section of Psychopharmacology, Dr. Turan M. Itil.

No studies of CI-395 have been undertaken in New York

May I suggest that you write directly to him for any further information.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
