Dear Dr. Mendelson:

It gives me great pleasure to send you a draft copy of the review "EEG Effects of Ethyl Alcohol" which is the third section of a review of EEG effects of addicting drugs which has been completed by one of my associates. This review was requested as part of the study program "EEG and Human Psychopharmacology" with which I have been involved for a number of years.

I trust this will interest you. Your comments will be appreciated.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
