383 Madison Avenue  
New York, New York 10017

Dear Mrs. Gibbons:

I have received your request for permission to reproduce my reprint of September 1970 on narcotic antagonists in a popular volume by Matheson and Davison.

This summary is incomplete as a reflection of the role of narcotic antagonists in opiate dependence. Perhaps a more complete summary, appearing in the American Journal of Nursing (71: 1359-1363, 1971) or another in press, may be more useful. If you will send a copy of the table of contents, it may be helpful to decide my response to your request.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
