Dear Doctor Molitor,

I am pleased to enclose a copy of the reprint you requested.

Cyclazocine is an experimental compound which, at the present time, is available through the National Institute of Mental Health, 5600 Fishers Lane, Rockville, Maryland 20852, or Sterling Winthrop Research Institute, Renssaler, N.Y.

From our experience it is clear that cyclazocine is applicable to morphine addiction, heroin addiction and all other opiate addictions.

Good luck in your study!

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
