

February 3, 1970

Dr. A. N. Schneider  
Department of Psychology  
University College  
New York University  
Bronx, New York

Dear Dr. Schneider,

I very much enjoyed your discussions in Aspen, and have tried to share my notes with my associates. May I ask that you send us copies of your more recent reports on memory changes and consolidation ?

Enclosed is the program of the APPA which is meeting in New York February 13 and 14. Some of the reporters are well known and you may enjoy the presentations. I am encouraged to invite you to the cocktail party, and look forward to welcoming you.

Sincerely yours,

Max Fink, M.D.  
Professor of Psychiatry
