

February 6, 1976

Mr. David Fisher
Hospital Practice
485 Madison Avenue
New York City

Dear Mr. Fisher,

On two occasions, endocrinologists of prominence have referred to articles in Hospital Practice as excellent reviews of recent work. In answering a question for Dr. Dorothy Krieger, she also told me of the report in your journal.

I have checked with our library and the journal is not available.

May I ask how one can get a subscription or copies beginning with April 1975 ?

Many thanks.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
