

September 27, 1967

Dr. Werner P. Koella
Senior Scientist
The Worcester Foundation for Experimental Biology
Shrewsbury, Massachusetts 01545

Dear Werner,

Enclosed is a final copy of the paper called "EEG Patterns of Cyclazocine, A Narcotic Antagonist," which has been revised following your suggestions. I believe this is much clearer and I have taken the liberty of bringing some of the experiences up-to-date.

I have withheld the figures because none have satisfied me. I believe the story is clear as presented and I trust satisfactory.

The other report for the 1967 ACNP will be ready shortly. My best regards.

Sincerely yours,

Max Fink, M.D.
Professor of Psychiatry
