Dr. Sidney Malitz, M.D.  
APA-District Branch  
250 West 57 Street  
New York City

Dear Sid,

I thank you for your expression of confidence in the appointment as Chairman of the Committee of Biological Therapies of the district branch, and would like to accept, but am unclear as to the responsibilities of the assignment. Is the committee appointed already, and who are the members? Or, may I recommend a committee from the membership for your approval?

Are there questions before the committee? Are there ongoing projects that may be reviewed and continued, or is the committee beginning anew?

I will call you to discuss these questions before replying to your kind recommendation.

My best regards.

Sincerely yours,

~~Samuel R. M. D. Psychiatry~~
